Do you think that a college career is a "fantastic opportunity" for many students or would they have had a more fulfilling experience if they had only gotten a two-year Associate Degree? 1. Yes, because they get to experience a new community, get a real-world job and build a lot of experience before they graduate. 2. No. Most students have many additional responsibilities such as family commitments, community service, and study. It is worth the extra cost, but most students are overloaded. 3. Not sure.
