new object added. so it is important that you keep your eyes open for the new objects. there are four different modes of play. in mode 1 you simply swipe across the scene and push to an object to collect it. your points are recorded and you move to the next scene. in mode 2 you swipe across the scene and then tap on an object to collect it. you also see a number next to each object that will tell you where it is located in the scene. the points you earn are displayed on the top of the screen. in mode 3 when you swipe you will see a flag appear indicating

---

that you have collected an object. if you are close to the object you will also see a little piece of paper to help guide you. if you can collect all of the objects in the scene you will be given a new game. in mode 4 you swipe and then touch to an object. you need to take note where it was located on the page or you will miss it if you are not careful. one feature that the autodesk navisworks simulate does is show a shadow for the objects in the scene. in some cases you can see a shadow where the object is hidden behind another object. if you get close to

---

the spot where the shadow moves  
to you can collect the object.
